

SINTESI *Design by Team Snaidero*

Looking for modernity in the simplicity of the forms and in attention to details.
A perfect model if you're looking for balance and harmony in your space.
Sintesi enhances daily life and makes you want to be surrounded by objects that are warm and involving but at the same time sought-after and technological.

Its image lets you immediately perceive the functional content of the project and to obtain new solutions that are aesthetically technical and professional.
It is a kitchen that transmits high-quality workmanship thanks to the special configuration of the door equipped with a thin aluminium profile.

- "Riga" satin finish variable interval

IMAGE SELECTION

Sintesi Pechino white gloss laminate

The lightness and elegance of this single monochromatic version is accentuated by the gloss finish of the doors that provides reflections and plays of light.

The private operating zone of the wall units creates a unique volume with the pantry cabinets that divide the space like a true piece of furnishing.

Sintesi Prime imitation walnut laminate

Two well-defined work areas take centre stage in this warm and welcoming atmosphere.

The pantry cabinets are expertly equipped and frame the island zone where the worktop and the sink are obtained from a light white Solid Surface

Sintesi Daniela imitation walnut laminate

Working with absolute freedom on the worktop; that's what this composition has to offer in all the elements that surround you and put you at the centre of the room.

In addition, light is the strong distinctive element that enhances these surfaces thanks to the use of the special backs and rack with hood.

Sintesi Shangai gloss red laminate

Enhancing the island thanks to the use of a functional block for cooking and steel sink and a snack surface in dark oak.

The pantry cabinets with built-in appliances compete the contents of the composition.
